Harvest log

Garden _____ Season _____ Sheet ____ of ____

DATE	TIME optional	BED	CROP	VARIETY	AMOUNT with its unit	MEASURED BY one kind per row	NOTE

AMOUNT, WITH ITS UNIT

Weight: lb & oz (1 lb = 16 oz) or kg & g (1 kg = 1000 g)

Volume: pints (US pt), quarts or cups; mL or L

Count: items, e.g. 4 cucumbers = 4 items

Bunches, baskets, bags or crates, e.g. 2 bunches of basil

MEASURED BY

Weight, Volume, Count, Bunches, Baskets, Bags or Crates. One kind per row: never add pounds to bunches.

Weigh each crop on its own. Tare the bowl or basket first, so only the harvest counts.

ONE ROW PER CROP

A mixed basket is several rows with the same date and time.

The columns match Rowleaf's spreadsheet (CSV) export. Free template from Rowleaf.
